

# TRAILBLAZER CONTROLS CORP.

## PRODUCT SPOTLIGHT

Intempco manufactures thermocouples and RTDs. Their specialty is the MIST Temperature Sensor. These sensors combine a conventional RTD & transmitter into one unit.

### MIST Series Temperature Transmitters

#### Microprocessor Integrated Sensor Transmitter

- \* Temperature sensor with 4-20mA output \*
- \* Hermetically sealed transmitter within sensor \*
- \* Field re-programmable with interface module and software \*
- \* Best value and easy installation \*

#### MIST M22

#### MIST M25

#### MIST M46

#### MIST M23B

### DTG03 - Industrial Digital Temperature Gauge

Large 4-digit red LED display

Field re-programmable with optional PC interface module and software

4-20 mA programmable linearized signal output

All 316 Stainless Steel Construction

Easy installation with various mounting configurations

IP 65 / NEMA 4 rated environmental protection

#### THERMOWELLS

Welds with lagging extension, flanged thermowells, custom lengths or other diameters are available.

#### RTD ASSEMBLIES

Rugged design

#### RTD ASSEMBLIES WITH THERMOWELLS

Spring-Loaded Probe
